New COSM Preamp — from vintage to metal and beyond

The ME-70 comes equipped with a new COSM Preamp section derived from the GT-10 series that models six types of guitar amps. In addition to their accurate sound, COSM Preamp models are beloved for conveying picking nuances subtly and faithfully.

Loaded with essential effects! Create sounds easily using the knob controls.

Powerful and potent, the ME-70 is also simple to use — as easy as a stompbox! The dedicated knob-based controls for each effect section makes dialing in tone simple and straightforward. And when you want to kick in an effect, just step on one of the four footswitches. Think of it as an array of stompboxes melded into one convenient pedalboard.

The EZ Tone function lets anyone create sounds quickly and easily.

The ME-70's EZ Tone function lets you create original sounds quickly by following the recommended settings. The results are pro-caliber, superb sounds.

Connect CD/MP3 players to the audio input for play-along performance.

The ME-70's AUX IN jack directly accepts external audio equipment such as MP3 and CD players, making it possible to play along with your favorite songs and artists.

* iPod, mobile digital device, is trademark of Apple Inc.

Go anywhere with AA alkaline batteries.

Highly portable, the ME-70 can be set up quickly at live venues, studios, or at home. Uses 6 AA alkaline batteries or can be used with an AC adaptor*.

* optional PSA series

Experience new levels of expression

You'll want to experiment with sounds as soon as you touch the ME-70. Create sounds intuitively with the compact, easy-to-use knob controls and four footswitches. In addition, anyone can create instant effects using the EZ TONE function. Simply put, there are no limits with the ME-70! This unit offers awesome super effects to all guitarists.

■ AD Conversion: 24-bit ■ AF method ■ DA Conversion: 24-bit ■ Sampling Frequency: 44.1 kHz ■ Patch: 36 (User) × 36 (Preset) ■ Nominal Input Level: GUITAR INPUT: -10 dBu, AUX IN: -18 dBu ■ Input Impedance: GUITAR INPUT: 1 M Ω , AUX IN: 22 k Ω ■ Nominal Output Level: -10 dBu ■ Output Impedance: 2 k Ω ■ Display: 7 segments, 2 digits LED ■ Power Supply: DC 9 V Dry Batteries (R6 LR6 (AA) type) × 6, AC Adaptor (BOSS PSA series: sold separately) ■ Current Draw: 130 mA, Expected battery life under continuous use: Alkaline: 12 hours, Carbon: 3.5 hours (These figures will vary depending on the actual conditions of use.) ■ Dimensions: 384 (W) × 229 (D) × 74 (H) mm / 15-1/8 (W) × 9-1/16 (D) × 2-15/16 (H) inches, Maximum height: 384 (W) × 229 (D) × 100 (H) mm / 15-1/8 (W) × 9-1/16 (D) × 3-15/16 (H) inches ■ Weight: 3.5 kg, 7 lbs 12 oz (including batteries) ■ Accessories: Dry Batteries (Alkaline: LR6 (AA) type) × 6 * 0 dBu = 0.775 Vrms

Built in chromatic tuner

Players can instantly activate Tuner mode by pressing a footswitch. Simply play the guitar and the ME-70 will automatically detect and display the pitches of the notes. Tune your guitar quickly using the triangular light-tuning guide derived from the TU-series tuners.

The Phrase Looper provides sound-on-sound performance.

The ME-70 is equipped with a Phrase Looper that can capture and repeat phrases you play. With a maximum recording time of 38 seconds, it gives you the ability to dramatically express yourself onstage.

Choose from a variety of expression-pedal effects.

In addition to the Wah effect, the ME-70 is loaded with creative pedal effects such as +1 Octave and -1 Octave Pitch Bend, Voice, and Mod Rate.
